Training Agenda AX Series Intelligent Fire Alarm Control Systems

1. Day 1 Introduction Basic to AX Series Fire Alarm Systems
 - a. Intelligent Fire Alarm Control Systems - AX Series (AX-CTL-1, -1L, -2 and -4)
 - i. Capacities and Enclosures
 1. Inner and Outer Doors
 - a. Aperture Module Locations
 - i. AX-012 Optional Strip Printer
 - b. Base System Modules
 - i. AX-ACB AC Board
 - ii. AX-CTL
 1. Inputs and Outputs
 - a. Power Supply / Batteries
 - b. Signalling Line Circuits
 - i. Addressable Modules
 - c. Notification Appliance Circuits
 - i. NAC Boosters
 - d. Common Relays
 - e. Base Card Expansion
 - i. Power Supply
 - f. On-board Ports
 - g. Digital Communications
 - iii. AX-DSP Display
 1. Capabilities
 2. Installation
 3. Operation
 - a. SLC Auto Learn
 - b. Intelligent Multi-Meter
 - iv. Introduction to Network Annunciator
 1. AX-NET4 vs. AX-NET7
 - c. Basic PC-Net Software Overview
 - i. Loading software
2. Day 2 Advanced AX Series Fire Alarm Systems (Prerequisite Day 1)
 - a. Enhanced PC-Net Software
 - b. Enhanced Networking
 - i. Multiple Panels
 - ii. Sector Base Programming
 - iii. AX-LAN ipGateway
 - iv. Fiber Optic Converter
 - c. Intelligent Fire Alarm Control Systems - AX Series (AX-CTL-1V, -2V and -4V)
 - d. AV-AMP-80 Amplifier
 - i. Input and Outputs
 1. Installation
 - ii. Interfacing to AV-VB Audio Booster
 - iii. Message Programming
 1. "Audacity"
 - iv. AX-PSU-6 Power Supply/Charger
 1. Inputs and Outputs
 2. Batteries
 - v. AV-MIC Microphone
 - e. AX-ASW-16 AX-I/O-48 Switch/LED Module and Driver Module
 - i. Installation
 - ii. Inputs/Outputs
3. Day 3 Command Centers and Firemens Phones (Prerequisite Days 1 & 2)
 - a. AX-CC(x)-16, Command Centers, and Modular Command Centers
 - b. AV-TEL Firefighter Telephone
 - i. Installation
 - ii. AV-JACK and AV-TEL-SUP
 1. Inputs/Outputs and Installation
 - c. Other System Software
 - i. Logo Tool
 - ii. Terminal Mode
 - d. Hands-On System Configuration and Programming (Test)
 - i. Typical Project Installation
 - e. New Products
