

AFSI University – Training Agenda

Avisa

Prerequisite: Must have had previous training and certification on AX Series Fire Alarm Control Panels.

1. Introduction and Capacity Overview
 - a. Enclosure & Mounting Options
2. AV-AMP-80 Amplifier Module
 - a. Input and Output definitions
 - b. Installation & Wiring
 - c. Programming
3. AV-MIC Microphone Module
 - a. Installation & Wiring
 - b. General and Selective Paging
4. AV-TEL Telephone module
 - a. Installation & Wiring
 - b. Operation
5. AX-ASW-16 Switch LED Matrix
 - a. Switch options
 - b. LED Functions
 - c. Programming
6. AX-PSU-6 Power Supply
 - a. Installation & Wiring
 - b. Voltage and Current Limitations
7. AV-VB Audio Booster
 - a. Configuration Options
 - b. Installation & Wiring

Lunch

8. PC-NET Field Configuration Programming
 - a. Typical Applications Examples
 - i. Standalone Evacuation System
 - ii. High-Rise Evacuation System
 - iii. Networked Evacuation System
9. AFSI University Certification Test
